

Double Hammock

Paloma olive PAH16-4

Double hammock Paloma olive is made of pure, high-quality cotton. It is from Colombia, where hammocks have always been an essential part of everyday life. A typical characteristic of all hammocks manufactured in Colombia is the open-loop-suspension.

This hammock features a tearproof selvage created by doubling the weft threads, thus making sure that you will be able to enjoy your peaceful LA SIESTA oasis for many years to come. The many suspension cords ensure an even distribution of weight.

Pure Cotton

Pure cotton is a material that is very soft to the touch, comfortable, tearproof and durable. Its long fibres give colours room to shine.

Open-loop-suspension

A typical characteristic of all hammocks manufactured in Colombia is the open-loop-suspension.

Tearproof selvage

The two borders of the lying surface feature a particularly tight weave. Thanks to this robust surface, exceptional stability is guaranteed.

High number of suspension cords

Additional comfort thanks to a multitude of suspension cords that distribute the weight equally to the cloth of the hammock and hence give a unique feeling of agravity.
